Technical Writing

Lecture (1)

***By
Dr. Ahmed Salah Abou Taleb***

Automotive Mechatronics Engineering Dept.

Faculty of Engineering

Al Ryada University for Science and Technology

1st Semester

2025 - 2026

Course Aim:

2

A technical writing in nursing course is designed to **equip** nurses with

- The precise,
- Clear, and
- Audience-specific communication skills

essential for their profession.

Unlike general academic writing, this course **focuses** on

- Producing objective,
- Evidence-based documents

for legal, clinical, and research purposes..

Course Objectives:

3

Upon successful completion of the course, students should be able to:

- Apply principles of clarity, conciseness, and accuracy to all forms of nursing documentation.
- Select the appropriate tone and style for different audiences, from professional peers to laypersons.
- Master different methods of nursing documentation and reporting, such as source-oriented, problem-oriented, and charting-by-exception.
- Understand the legal and ethical implications of nursing documentation and reporting..

Course Objectives (Cont.):

4

Upon successful completion of the course, students should be able to:

- Navigate and document effectively within electronic health records (EHR) systems.
- Develop evidence-based patient education materials, including pamphlets, brochures, and instructional guides.
- Write formal documents, such as proposals, policies, procedures, and research reports, adhering to professional standards like APA format.
- Create and utilize graphics, such as charts and tables, to enhance reports and presentations..

Course Learning Unit Contact Hours
