QUESTION BANK

Teaching & Learning Strategies

Traditional & Modern Approaches in Nursing Education

Dr. Saeed Mohammad | College of
Nursing | Al Ryada University

Total Questions: ~80

Categories: Easy · Moderate · Difficult

PART I: Multiple Choice Questions (MCQ)

Choose the best answer for each question. (30 Questions)

Section A — Easy (Questions 1–10)

[Easy]

Q1. Traditional teaching is also known as:

- A.** Progressive approach
- B.** Lecture-based or didactic approach
- C.** Discovery learning
- D.** Collaborative method

Answer: B

[Easy]

Q2. The oldest and most universally recognized teaching method is:

- A.** Group Discussion
- B.** Demonstration
- C.** Lecture
- D.** Recitation

Answer: C

[Easy]

Q3. Which of the following is a key characteristic of modern teaching strategies?

- A.** Teacher-centered instruction
- B.** Rote memorization
- C.** Student-centered active learning
- D.** Standardized textbook use

Answer: C

[Easy]

Q4. Learning is best defined as:

- A.** Receiving information from a teacher
- B.** A permanent change in knowledge, skills, or attitude
- C.** Attending classes regularly
- D.** Passing written examinations

Answer: B

[Easy]

Q5. Education is described as:

- A.** A one-time event
- B.** Only classroom instruction
- C.** A systematic, sequential, logical process
- D.** Self-directed reading

Answer: C

[Easy]

Q6. Drill and practice method is most effective for:

- A.** Building automaticity in foundational skills
- B.** Developing critical thinking
- C.** Creative expression
- D.** Group collaboration

Answer: A

[Easy]

Q7. The demonstration method is particularly effective for:

- A.** Abstract theoretical concepts only
- B.** Large lecture halls
- C.** Teaching procedural and practical skills
- D.** Written examinations

Answer: C

[Easy]

Q8. In the flipped classroom model, students:

- A.** Attend lectures and take notes passively
- B.** Review content at home and apply it in class
- C.** Work individually throughout the session
- D.** Only use textbooks for learning

Answer: B

[Easy]

Q9. Gamification in education involves:

- A.** Playing video games during class time
- B.** Applying game-design elements to boost motivation and engagement
- C.** Replacing exams with games
- D.** Using only digital tools for assessment

Answer: B

[Easy]

Q10. Which component of education is considered the most important quality factor?

- A.** Curriculum
- B.** Learning environment
- C.** Teacher
- D.** Technology

Answer: C

Section B — Moderate (Questions 11–22)

[Moderate]

Q11. Which characteristic is NOT part of traditional teaching?

- A.** Teacher-centered instruction
- B.** Student-centered learning
- C.** Curriculum-driven content
- D.** Standardized assessment

Answer: B

[Moderate]

Q12. What is a major advantage of the lecture method?

- A.** Promotes active learning
- B.** Accommodates all learning styles
- C.** Efficient for conveying large volumes of information
- D.** Provides immediate individual feedback

Answer: C

[Moderate]

Q13. Group discussion is best described as:

- A.** Teacher lectures to students
- B.** Cooperative problem-solving seeking consensus
- C.** Individual student presentations
- D.** Silent reading and writing

Answer: B

[Moderate]

Q14. The Jigsaw Technique in cooperative learning requires:

- A.** All students to study the same material independently
- B.** Each student to become an expert on a subtopic and teach it to peers
- C.** Students to compete individually for grades
- D.** Teacher to divide material and present each part

Answer: B

[Moderate]

Q15. In Think-Pair-Share, the correct sequence is:

- A.** Share → Pair → Think
- B.** Pair → Think → Share
- C.** Think → Pair → Share
- D.** Think → Share → Pair

Answer: C

[Moderate]

Q16. Problem-Based Learning (PBL) primarily develops:

- A.** Rote memorization skills
- B.** Passive listening ability
- C.** Critical thinking and clinical reasoning through real-world problems
- D.** Standardized testing performance

Answer: C

[Moderate]

Q17. Attention in lectures typically decreases after:

- A.** 10 minutes
- B.** 20 minutes
- C.** 30 minutes
- D.** 45 minutes

Answer: B

[Moderate]

Q18. Blended learning combines:

- A.** Two different textbooks
- B.** Theory and clinical practice only
- C.** Traditional face-to-face instruction with online learning activities
- D.** Group and individual written assessments

Answer: C

[Moderate]

Q19. The primary focus of the recitation method is:

- A.** Creative problem solving
- B.** Recall and repetition of learned material
- C.** Group collaboration
- D.** Hands-on experiments

Answer: B

[Moderate]

Q20. A limitation of the textbook method is:

- A.** Too much teacher creativity
- B.** Content may become outdated quickly
- C.** Excessive student autonomy
- D.** Too much individualization

Answer: B

[Moderate]

Q21. Socratic questioning guides students by:

- A.** Providing direct answers to all questions
- B.** Structured probing dialogue to discover knowledge
- C.** Assigning independent reading tasks
- D.** Presenting a lecture with pre-set Q&A

Answer: B

[Moderate]

Q22. Individualized Learning Plans (ILPs) are best described as:

- A.** Standardized curricula for all students
- B.** Custom educational roadmaps with personalized goals and pathways
- C.** Group-based study schedules
- D.** Online quizzes with adaptive scoring

Answer: B

**AL RYADA UNIVERSITY FOR
SCIENCE AND TECHNOLOGY**

Section C — Difficult (Questions 23–30)

[Difficult]

Q23. According to Bloom's Taxonomy, which interactive strategy operates at the Analysis–Evaluation level?

- A. Drill and practice
- B. Socratic questioning and Case-Based Learning
- C. Textbook reading
- D. Lecture method

Answer: B

[Difficult]

Q24. In the Station Rotation Model of blended learning, students:

- A. Study exclusively online at their own pace
- B. Rotate between face-to-face, small group, and online learning on a fixed schedule
- C. Choose any learning pathway independently
- D. Only receive online instruction

Answer: B

[Difficult]

Q25. Which statement best reflects the constructivist theory underlying active learning?

- A. Knowledge is transferred directly from teacher to student
- B. Students construct knowledge through active engagement and experience
- C. Curriculum alone determines student achievement
- D. Repetition is the foundation of all learning

Answer: B

[Difficult]

Q26. The 'flow state' in gamification refers to:

- A.** Students moving freely between classrooms
- B.** Difficulty calibrated just above the student's comfort level for optimal engagement
- C.** Unlimited game time in educational settings
- D.** Unrestricted access to digital resources

Answer: B

[Difficult]

Q27. In a flipped classroom, the instructor's primary in-class role shifts to:

- A.** Delivering content through lecture
- B.** Administering standardized tests
- C.** Coaching critical thinking and guiding application tasks
- D.** Assigning textbook chapters for review

Answer: C

[Difficult]

Q28. Which of the following best differentiates Case-Based Learning from traditional case studies?

- A.** CBL uses simpler, fictional scenarios
- B.** CBL is a passive individual activity
- C.** CBL involves inquiry, clinical decision-making, and evidence-based reasoning in realistic scenarios
- D.** CBL focuses only on theoretical content

Answer: C

[Difficult]

Q29. Adaptive Learning Technology adjusts instruction based on:

- A.** Teacher preference
- B.** Each student's ongoing responses and performance data
- C.** Fixed course schedule
- D.** Peer recommendations

Answer: B

[Difficult]

Q30. The Teaching-Learning Cycle includes all of the following steps EXCEPT:

- A.** Plan, Implement, Assess
- B.** Reflect, Improve, Engage
- C.** Memorize, Recall, Reproduce
- D.** Learn and Improve

Answer: C

PART II: True / False Questions

Write (T) for True or (F) for False in the space provided. (20 Questions)

Section A — Easy (Questions 1–8)

[Easy]

Q1. Traditional teaching focuses on student-centered learning. (____)

Answer: False

[Easy]

Q2. The lecture method is cost-effective for large classes. (____)

Answer: True

[Easy]

Q3. Group discussion promotes passive learning. (____)

Answer: False

[Easy]

Q4. Demonstration method makes abstract concepts concrete. (____)

Answer: True

[Easy]

Q5. Drill and practice builds automaticity in skills. (____)

Answer: True

[Easy]

Q6. Textbooks always provide up-to-date content. (____)

Answer: False

[Easy]

Q7. Traditional teaching methods remain relevant in modern education. (____)

Answer: True

[Easy]

Q8. Education is described as a random, unsystematic process. (____)

Answer: False

Section B — Moderate (Questions 9–16)

[Moderate]

Q9. Recitation encourages deep critical thinking. (____)

Answer: False

[Moderate]

Q10. Attention in lectures increases after 20 minutes. (____)

Answer: False

[Moderate]

Q11. The flipped classroom dedicates classroom time to applying knowledge. (____)

Answer: True

[Moderate]

Q12. In PBL, students work on closed, single-answer problems. (____)

Answer: False

[Moderate]

Q13. Blended learning can only be implemented in universities. (____)

Answer: False

[Moderate]

Q14. Think-Pair-Share promotes individual accountability alongside collaborative reflection. (____)

Answer: True

[Moderate]

Q15. Gamification provides immediate feedback to students. (____)

Answer: True

[Moderate]

Q16. The Jigsaw Technique requires every group member to teach a subtopic. (____)

Answer: True

Section C — Difficult (Questions 17–20)

[Difficult]

Q17. Adaptive learning technology adjusts content based on fixed, pre-set rules regardless of student performance. (____)

Answer: False

[Difficult]

Q18. Socratic questioning requires the instructor to provide direct answers to guide students efficiently. (____)

Answer: False

[Difficult]

Q19. Psychological safety in interactive learning means treating wrong answers as learning opportunities. (____)

Answer: True

[Difficult]

Q20. Effective teaching draws on both traditional and modern methods depending on context and objectives. (____)

Answer: True

PART III: Matching Questions

Match each item in Column A with the correct description in Column B.

Set 1 — Teaching Methods (Easy)

[Easy]

Column A	Column B
1. Lecture	A. Repeated practice for mastery
2. Group Discussion	B. Questions for recall
3. Demonstration	C. Showing skills/processes
4. Recitation	D. Verbal information delivery
5. Drill & Practice	E. Cooperative problem-solving
6. Textbook	F. Primary curriculum guide

Answer Key: 1-D, 2-E, 3-C, 4-B, 5-A, 6-F

Set 2 — Modern Teaching Strategies (Moderate)

[Moderate]

Column A	Column B
1. Flipped Classroom	A. Points, badges, and challenges for engagement
2. Gamification	B. Content pre-studied at home; class time for application
3. Think-Pair-Share	C. Each student becomes an expert on a subtopic
4. Blended Learning	D. Probing dialogue to guide knowledge discovery
5. PBL	E. Combines online and face-to-face learning
6. Jigsaw Technique	F. Think individually, discuss, then share with class
7. Socratic Questioning	G. Real-world inquiry-based problem solving

Answer Key: 1-B, 2-A, 3-F, 4-E, 5-G, 6-C, 7-D

Set 3 — Teacher Competencies & Education Components (Difficult)

[Difficult]

Column A	Column B
1. Subject Matter Competency	A. Deep knowledge of content area
2. Transactional Competency	B. Assessment expertise
3. Evaluation Competency	C. Adjusts content difficulty based on student data
4. Management Competency	D. Tailors instruction to individual needs
5. Learning Environment	E. Communication and interaction skills
6. Curriculum	F. Organized, structured classroom environment
7. Personalized Learning	G. Physical and psychological conditions for learning
8. Adaptive Technology	H. Guidelines and structured experiences of a discipline

Answer Key: 1-A, 2-E, 3-B, 4-F, 5-G, 6-H, 7-D, 8-C

PART IV: Essay Questions

Answer the following questions in complete sentences. Include examples where appropriate.

A. List / Enumerate Questions

[Easy]

Q1. List FIVE key characteristics of traditional teaching methods.

Model Answer Guidance: Expected: teacher-centered, lecture-based, curriculum-driven, standardized assessment, passive student role, emphasis on memorization.

[Easy]

Q2. Enumerate FOUR components of the education process and briefly define each one.

Model Answer Guidance: Expected: Learning Environment, Teacher, Curriculum, Learner — each with a brief definition.

[Moderate]

Q3. List the SEVEN modern teaching strategies covered in this course and state the core focus of each.

Model Answer Guidance: Expected: Active/Interactive Learning, Collaborative Learning, Flipped Classroom, Personalized Learning, PBL, Gamification, Blended Learning — with one-line description each.

[Moderate]

Q4. List SEVEN teacher competencies required for effective teaching and provide one example for each.

Model Answer Guidance: Expected: Subject Matter, Transactional, Personal, Co-Curricular, Evaluation, Management, Community — each with an example.

[Difficult]

Q5. Enumerate the steps of the Teaching-Learning Cycle and explain how each step contributes to effective education.

Model Answer Guidance: Expected: Plan → Implement → Engage → Learn → Assess → Reflect → Improve — with explanation of each.

B. Explain Questions

[Easy]

Q1. Explain the main difference between traditional and modern teaching approaches in terms of the teacher's role.

Model Answer Guidance: Traditional: teacher as sole authority/knowledge transmitter. Modern: teacher as facilitator, coach, guide who encourages student-led discovery.

[Easy]

Q2. Explain what is meant by 'learning' and describe TWO factors that influence it.

Model Answer Guidance: Learning = permanent change in capability/behavior. Factors: prior knowledge, motivation, environment, teaching quality, learner readiness.

[Moderate]

Q3. Explain the concept of Problem-Based Learning (PBL) and describe how it is applied in nursing education.

Model Answer Guidance: PBL = inquiry-driven strategy using real-world problems. In nursing: clinical case studies, diagnostic reasoning, ethical decisions, NANDA/NIC/NOC application, interprofessional communication.

[Moderate]

Q4. Explain TWO advantages and TWO limitations of the lecture method.

Model Answer Guidance: Advantages: cost-effective for large groups, efficient content delivery. Limitations: attention declines after 20 min, passive learning, does not accommodate all styles, limited feedback.

[Difficult]

Q5. Explain how the flipped classroom model transforms the educational experience for both teacher and student, using specific examples from nursing education.

Model Answer Guidance: Teacher shifts from lecturer to coach; student becomes active agent. Examples: pre-class video on electrolytes + in-class case: Na 118, K 6.5 — apply clinical reasoning. Deeper engagement, critical thinking, peer collaboration.

C. Discuss Questions

[Moderate]

Q1. Discuss the role of feedback in interactive teaching strategies. Why is immediate and specific feedback essential for student learning?

Model Answer Guidance: Feedback as the engine of learning; gamification example (Kahoot correction of wrong antibiotic choice); simulation debriefing; psychological safety; error as learning opportunity.

[Moderate]

Q2. Discuss the importance of collaborative and cooperative learning in nursing education. How does teamwork in the classroom prepare students for the clinical environment?

Model Answer Guidance: Nursing = teamwork essential for patient safety; Group Projects simulate multidisciplinary teams; Learning Stations; Jigsaw builds accountability; mirrors interprofessional collaboration in healthcare.

[Difficult]

Q3. Compare and contrast traditional teaching methods with modern pedagogical approaches. In your discussion, address: philosophical differences, strengths and limitations, and contextual appropriateness.

Model Answer Guidance: Philosophy: teacher-centered vs student-centered; Strengths of traditional: structured, efficient, cost-effective. Modern: develops critical thinking, clinical reasoning, collaboration. Each appropriate in context; effective teachers integrate both.

Summary: Question Bank Overview

Question Type/Section	No. of Questions	Difficulty
MCQ — Easy	10	Easy
MCQ — Moderate	12	Moderate
MCQ — Difficult	8	Difficult
True/False — Easy	8	Easy
True/False — Moderate	8	Moderate
True/False — Difficult	4	Difficult
Matching — Set 1	6 pairs	Easy
Matching — Set 2	7 pairs	Moderate
Matching — Set 3	8 pairs	Difficult
Essay — List/Enumerate	5	Easy–Difficult
Essay — Explain	5	Easy–Difficult
Essay — Discuss	3	Moderate–Difficult

Total: ~80 questions across all types and difficulty levels
