Answer: *badges*

Teaching & Learning Strategies — Fill in the Blank | Continued (Q19–Q35)

Q19

Problem-Based Learning develops diagnostic reasoning, ethical decision-making, and _____ communication.

Answer: *interprofessional*

Q20

In the _____ Model of Blended Learning, students autonomously choose their learning pathways.

Answer: *Self-Directed*

Q21

Adaptive Learning Technology adjusts difficulty, format, and pacing based on each student's _____ and performance data.

Answer: *ongoing responses*

Q22

E-Learning uses modern _____ mechanisms — computers, networks, multimedia, and internet portals.

Answer: *communication*

Part C: AI in Nursing Education (Q23–Q28)

Q23

AI assessment tools can reduce grading time by up to _____.

Answer: *40%*

Q24

AI provides _____ faster feedback cycles compared to traditional methods.

Answer: *3x*

Q25

Algorithmic Bias occurs when AI is trained on _____ datasets.

Answer: *non-diverse*

Q26

Over-reliance on AI may weaken independent _____ reasoning — a core nursing competency.

Answer: *clinical*

Q27

Students must be _____ when AI monitors their learning behaviours — reflecting Consent & Transparency.

Answer: *informed*

Q28

AI chatbots and virtual assistants provide _____ support, reducing student anxiety.

Answer: *round-the-clock*

Part D: Bloom's Taxonomy (Q29–Q35)

Q29

Bloom's original Taxonomy of Educational Objectives was published in _____.

Answer: *1956*

Q30

The 2001 revision of Bloom's Taxonomy was conducted by _____ and _____.

Answer: *Anderson and Krathwohl*

Q31

In the revised 2001 taxonomy, the six levels from lowest to highest end with: ...Analyze, _____, and _____.

Answer: *Evaluate, Create*

Q32

The three domains of Bloom's framework are the Cognitive domain (_____), the Affective domain (_____), and the Psychomotor domain (_____).

Answer: *Thinking / Feeling / Doing*

Q33

In the ABCD model, A = Audience, B = _____, C = Condition, D = _____.

Answer: *Behavior / Degree*

Q34

A learning Goal is _____, long-term, and NOT directly measurable, while a learning Objective is _____, observable, and measurable.

Answer: *broad / specific*

Q35

The verb '_____' signals the Create (L6) cognitive level, while the verb '_____' signals the Remember (L1) level.

Answer: *Design / Define*
