Course Specification

(2025-2026)

1. Basic Information

Course Title (according to the bylaw)	Fundamentals of Nursing II practice			
Course Code (according to the bylaw)	CLN 14111			
Department/s participating in delivery of the course	Medical surgical department			
Number of credit hours/points of the course (according to the bylaw)	Theoretical	Practical	Other (specify)	Total
	-	3	-	3
Course Type	اجباري			
Academic level at which the course is taught	الفرقة/المستوي الاول			
Academic Program	B.sc in Nursing science Credit hour system			
Faculty/Institute	Nursing			

University/Academy	Al Ryada University for science and technology
Name of Course Coordinator	
Course Specification Approval Date	9/9/2025
Course Specification Approval (Attach the decision/minutes of the department /committee/council)	

2. Course Overview (Brief summary of scientific content)

This course provides the beginning nursing students to the nursing profession with opportunities to develop clinical competencies necessary to meet the needs of individuals that required for maintaining microbial, physical, and psychological safety are introduced along with skills needed in therapeutic interventions in a safe, legal, and ethical manner in the nursing laboratory, then at the hospital to be more confident and feel safe while dealing with patients.

3. Course Learning Outcomes CLOs

Domain No1: Professional and Ethical Practice

Competency	Key elements	Course subjects	Subject objectives
1.1 Demonstrate knowledge, understanding, responsibility and accountability of the legal obligations for ethical nursing practice	1.1.1 Demonstrate utilizing of the legislative framework and the role of the Nurse and its regulatory functions.	Medication administration	1.1.1.1. Calculate accurate medication dosages using appropriate mathematical methods. Perform clinical skills related to medication administration safely and effectively 1.1.1.2. Administer medications via various routes (oral, intravenous, intramuscular,

			subcutaneous, topical, etc.) following clinical protocols. 1.1.1.3. Monitor patients for therapeutic and adverse effects post-medication administration. 1.1.1.4. Apply infection control and safety measures during medication administration
--	--	--	---

Domain No: 2 Holistic Patient-Centered Care

Competency	Key elements	Course subjects	Subject objectives
2.1 Provide holistic and evidence-based nursing care in different practice settings.	2.1.1 Conduct holistic and focused bio-psychosocial and environmental assessment of health and illness in diverse settings.	• NGT insertion & care.	2.1.1.1. Prepare equipment and maintain infection control standards during the procedure. 2.1.1.2. Perform correct insertion and verify proper tube placement using accepted methods (e.g., pH testing, X-ray confirmation). 2.1.1.3. Provide comprehensive care and management of patients with NGTs 2.1.1.5. Perform routine care to prevent complications such as nasal irritation, blockage, and infection. • 2.1.1.6. Educate patients and caregivers about NGT purpose, care, and potential complications

Competency	Key elements	Course subjects	Subject objectives
		• Enema	2.1.1.7.Prepare equipment and maintain patient privacy and comfort during the procedure. 2.1.1.8.Perform enema administration following clinical protocols, ensuring proper positioning and technique. 2.1.1.9.Assess patient response before, during, and after enema administration 2.1.1.10.Educate patients and caregivers about the purpose, procedure, and possible sensations during enema use
2.1Provide holistic and evidence-based nursing care in different practice settings.	2.1.2Provide holistic patient-centered care respecting people diversity.	• Male Catheter insertion, removal and care.	2.1.2.1.Prepare equipment and maintain sterile field throughout the procedure. 2.1.2.2.Insert and secure the catheter correctly and safely following clinical protocols. 2.1.2.3.Monitor catheter function, ensure patency, and manage catheter care to prevent infection and discomfort.
		• Female Catheter insertion, removal and Care	2.1.2.4.Demonstrate proper aseptic technique in performing female urinary catheterization 2.1.2.5.Insert and secure the catheter safely and correctly according to clinical guidelines. 2.1.2.6.Manage care of female urinary catheters to promote patient comfort and prevent complications

Competency	Key elements	Course subjects	Subject objectives
			2.1.2.7.Detect signs of catheter-associated urinary tract infection (CAUTI) and other complications promptly.
		• Heat, Warm and cold applications	2.1.2.8. Demonstrate correct techniques for applying heat, warm, and cold treatments safely 2.1.2.9.Select appropriate methods and equipment for moist and dry heat as well as cold applications. 2.1.2.10.Apply treatments using proper timing, temperature control, and patient positioning. 2.1.2.11. Assess patient response and monitor for complications related to heat and cold therapies 2.1.2.12.Observe for signs of adverse effects such as burns, frostbite, or increased pain. 2.1.2.13.Adjust or discontinue therapy based on patient feedback and clinical assessment.

Domain No 3: Manage People, Work Environment and Quality

Competency	Key elements	Course subjects	Subject objectives
3.3 Review health care outcomes in the light of quality indicators and benchmarks to achieve the ultimate goals of improving the quality of nursing care.	3-3-4. Implement standardized protocols when providing nursing care considering quality improvement and patient's safety.	• Oxygenation	3.3.4.1. Perform comprehensive respiratory assessments including respiratory rate, rhythm, depth, and use of accessory muscles. 3.3.4.2. Utilize assessment tools such as pulse oximetry, arterial blood gases (ABGs), and auscultation to evaluate oxygenation. 3.3.4.3. Apply various oxygen delivery devices (nasal cannula, masks, non-rebreather, etc.) based on patient needs and clinical condition. 3.3.4.4. Adjust oxygen flow rates and monitor patient response according to clinical guidelines.

4. Teaching and Learning Methods

1. Demonstration and re-demonstration of procedures.
2. Role play.
3. Simulation classroom.
4. Video based learning
5. OSCE simulation
6. field training
7. case study

8. performance based training

Course schedule						
Number of the Week	Scientific content of the course (Course Topics)	Total Weekly credit Hours	Expected number of the Learning Hours			
			Theoretical teaching (lectures/discussion groups/)	Training (Practical/Clinical/)	Self-learning (Tasks/ Assignments / Projects/ ...)	Other (to be determined)
1st	Heat, Warm and cold applications	3	-	6	-	-
2nd	Medication IV & Administration Therapy.	3	-	6	-	-
3rd	Assessment I(Q1)			1		
4th	NGT insertion & care.	3	-	6	-	-
	Mid term			1		
5th	Male Catheter insertion, removal and care.	3	-	6	-	-
6th	Female Catheter insertion, removal and Care	3	-	6	-	-
7th	Quiz2			1		
8th	Oxygenation	3	-	6	-	-
9th	Enema	3	-	6	-	-
10th	Final exam					
	Total			45		

5. Methods of students' assessment

No.	Assessment Methods *	Assessment Timing (Week Number)	Marks/ Scores	Percentage of total course Marks
1	Exam 1 written (Semester work)	15-10-2025	10	6.7%
2	Mid term		50	33.3%
3	Exam 2 (Semester work)	22-11-2026	10	6.7%
4	Activity		5	3.3%
5	Final Oral Exam	-12-2025	15	10%
6	Final Practical Exam	-1-2026	60	40%
	Field training			
	Other (Mention)			
	Seasonal works 70 degrees			
	Final oral exam 20 degrees			
	Final practical exam 60 degrees			

6. Learning Resources and Supportive Facilities *

Learning resources (books, scientific references, etc.) *	The main (essential) reference for the course (must be written in full according to the scientific documentation method)	Nursing Fundamentals, 2nd Edition (2024) •Berman, A., Snyder, S.J., & Frandsen, J. (2021). Kozier & Erb's Fundamentals of Nursing: Concepts, Process, and Practice (11th ed). : United Kingdom: Pearson Education. ISBN-13: 978-0135428733. ISBN-10: 0135428734 •Berman, A., & Snyder, S. (2021). Student workbook and resource guide for Kozier & Erb's fundamentals of nursing (10th ed). Upper Saddle River, NJ: Pearson. ISBN: 978-0-13-517897-3. •Berman, A., Snyder, S. J., Levett-Jones, T., Dwyer, T., Hales, M., Harvey, N., ... & Stanley, D. (2018). Kozier & Erb's Fundamentals of Nursing (4th ed.).
